

# **MVB EPOXY COAT | SAFETY DATA SHEET (SDS)**

### **SECTION 1 - IDENTIFICATION**

Product identifier	MVB Epoxy Coat - Part B
Other means of identification	MVB Epoxy Coat
Recommended use and restrictions on use	Construction product / Refer to technical information
Initial supplier identifier	11530 Chairman Dr, Dallas, TX 75243 927.293.4444 contact@advancedresins.com
Emergency telephone number/restriction on use	Canada – CANUTEC 24 hour number <b>613-996-6666</b>

#### **SECTION 2 - HAZARD IDENTIFICATION**

Classification of hazardous product

Acute toxicity Dermal - Category 5 (name of the category or subcategory of the hazard class)

Acute toxicity Oral - Category 4 Chronic aquatic toxicity - Category 2 Reproductive Toxicity - Category 1B

> Serious Eve Damage - Category 1 Skin Corrosion - Category 1B Skin Sensitizer - Category 1

Acute aquatic toxicity - Category 2

Specific Target Organ Toxicity - Repeated Exposure - Category 2

Information elements H302 Harmful if swallowed

H313 May be harmful in contact with skin (symbols, signal words, hazard statements and precautionary statements of the category/subcategory)

**DANGER** 

**H360** May damage fertility or the unborn child.

H318 Causes serious eye damage

H314 Causes severe skin burns and eye damage

**H317** May cause an allergic skin reaction

H373 May cause damage to organs through prolonged or

repeated exposure.

P101 If medical advice is needed, have product container or label at hand. P102 Keep out of reach of children. P103 Read label before use. P273 Avoid release to the environment. P264 Wash thoroughly after handling. P270 Do not eat, drink or smoke when using this product. P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read and understood. P280 Wear protective gloves/protective clothing/eye protection/face protection. P260 Do not breathe dust/fume/ gas/mist/vapors/spray. P261 Avoid breathing dust/fume/gas/mist/vapors/spray. P272 Contaminated work clothing should not be allowed out of the workplace. P312 Call a POISON CENTER/doctor if you feel unwell. P301 + P312 IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell. P330 Rinse mouth. P391 Collect spillage. P308 + P313 IF exposed or concerned: Get medical advice/attention. P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310 Immediately call a POISON CENTER or doctor. P301 + P330 + P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. P303 + P361 + P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water [or shower]. P363 Wash contaminated clothing before reuse. P304 + P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing. 321 Specific treatment (see section 4 on this SDS). P302 + P352 IF ON SKIN: Wash with plenty of water. P333 + P313 If skin irritation or a rash occurs: Get medical advice/attention. P362 + P364 Take off contaminated clothing. And wash it before reuse. P314 Get Medical advice/attention if you feel unwell. H401 Toxic to aquatic life. H411 Toxic to aquatic life with long lasting effects P405 Store locked up. P501 Dispose of contents/ container to an approved waste disposal plant.

None

**Other Hazards Known** 

# **SECTION 3 - COMPOSITION/INFORMATION ON INGREDIENTS**

Chemical name (common name/synonyms)	CAS NUMBER or other	Concentration (%)
CYCLOALIPHATIC AMINE	Secret	39 - 72
EPOXY POLYAMINE ADDUCT	N/A	12 - 22
PARATERTIARYBUTYLPHENOL	0000098-54-4	8 - 15
ISOPHORONEDIAMINE	0002855-13-2	8 - 14
4-NONYL PHENOL BRANCHED	0084852-15-3	1.7 - 3
POLYOXYPROPYLENEDIAMINE	0009046-10-0	1.4 - 2

All ingredients are listed according to OSHA (29 CFR).

# **SECTION 4 - FIRST AID MEASURES**

Inhalation	IF INHALED: Remove source of exposure or move person to fresh air and keep comfortable for breathing. If exposed/feel unwell/concerned: Call a POISON CENTER/doctor.	
Ingestion	IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. NEVER give anything by mouth if victim is rapidly losing consciousness, or is unconscious or convulsing. Rinse mouth thoroughly with water. Have victim drink two glasses of water. If vomiting occurs naturally, have victim lean forward to reduce risk of aspiration. Call a doctor if you feel unwell.	
Skin contact	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water (15-20 minutes). Wash contaminated clothing before reuse.	
Eye contact	IF IN EYES, Rinse cautiously with water for several minutes (15-20). Remove contact lenses, if present and easy to do. Continue rinsing.	
Most important symptoms and effects (acute and delayed)  Causes severe skin, respiratory or digestive tract burns and eye damage.		Causes severe skin, respiratory or digestive tract burns and eye damage.
In all cases, call a doctor. Do not forget this document.  attention/special treatment		In all cases, call a doctor. Do not forget this document.

# **SECTION 5 - FIREFIGHTING MEASURES**

product (hazardous combustion products)	Carbon oxides and other irritant/toxic gases and fumes.
Suitable and unsuitable extinguishing media	In case of fire: Use carbon dioxide, chemical powder agent and appropriate foam to extinguish surrounding products.
Special protective equipment and precautions for fire-fighters	During a fire, irritating/toxic smoke and fumes may be generated. Do not enter fire area without proper protection. Firefighters should wear proper protective equipment and self-contained breathing apparatus with full facepiece. Shield personnel to protect from venting, rupturing or bursting cans. Move containers from fire area if it can be done without risk. Water spray may be useful in cooling equipment and cans exposed to heat and flame.

#### **SECTION 6 - ACCIDENTAL RELEASE MEASURES**

Personal precautions, protective equipment and emergency procedures	Absorb spillage to prevent material-damage. Restrict access to area until completion of clean-up. Ensure clean-up is conducted by trained personnel only. All persons dealing with clean-up should wear the appropriate protective equipment (See Section 8).
Methods and materials for containment and cleaning up	Ventilate area of release. Stop the leak if it can be done safely. Contain and absorb any spilled liquid concentrate with inert absorbent material, then place material into a container for later disposal (see Section 13). Contaminated absorbent material may pose the same hazards as the spilled product. Notify the appropriate authorities as required.

<sup>\*</sup> Statement - This safety data sheet provides concentration range(s) instead of the actual concentration(s) considered trade secret(s).

#### **SECTION 7 - HANDLING AND STORAGE**

#### Precautions for safe handling

Wear protective gloves/ protective clothing/ eye protection/ face protection.

Before handling, it is very important that engineering controls are operating, and that protective equipment requirements and personal hygiene measures are being followed. People working with this chemical should be properly trained regarding its hazards and its safe use. Inspect containers for leaks before handling. Label containers appropriately. Ensure proper ventilation. Avoid breathing dust/fume/gas/mist/vapours/spray. Avoid contact with eyes, skin and clothing. Keep away from heat, sparks and flame. Avoid generating high concentrations of dusts, vapours or mists. Keep away from incompatible materials (Section 10). Keep containers closed when not in use. Empty containers are always dangerous. Refer also to Section 8.

Conditions for safe storage, including any incompatibilities Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up. Store away from incompatible materials (Section 10). Inspect all incoming containers to make sure they are properly labelled and not damaged. Storage area should be clearly identified, clear of obstruction and accessible only to trained personnel. Inspect periodically for damage or leaks.

#### **SECTION 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION**

**Control Parameters** (biological limit values or exposure limit values and source of those values)

Exposure limits: None known

Appropriate engineering controls

Use under well-ventilated conditions. Local exhaust ventilation system is recommended to maintain concentrations of contaminants below exposure limits. Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Individual protection measures/personal protective equipment Respiratory protection is required if the concentrations are higher than the exposure limits. Use a NIOSH approved respirators if the exposure limits are unknown. Chemically protective gloves (impervious), and other protective clothing to prevent prolonged or repeated skin contact, must be worn during all handling operations. Wear protective chemical splash goggles to prevent mists from entering the eyes. Wash hands/nails/face thoroughly after handling. Do not eat, drink or smoke when using this product. Practice good personal hygiene after using this material. Remove and wash contaminated work clothing before re-use.

#### **SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES**

Appearance / color	Light yellow liquid	Vapour pressure	Not available
Odour	Characteristic	Vapour density	Not available
Odour threshold	Not available	Relative density	Not available
рН	Not available	Solubility	Not available
Melting point / Freezing point	Not available	Partition coefficient of n-octanol/water	Not available
Initial boiling point/ranges	Not available	<b>Auto-ignition temperature</b>	Not available
Flash point	100°C	<b>Decomposition temperature</b>	Not available
<b>Evaporation rate</b>	Not available	Viscosity	Not available
Flammability (solid, gas)	Not available	VOC	Not available
Upper/Lower flammability or explosive limits	Not available	Other	None know

#### **SECTION 10 - STABILITY AND REACTIVITY**

Reactivity	Does not react under the recommended storage and handling conditions prescribed.
Chemical Stability	Stable under the recommended storage and handling conditions prescribed.
Possibility of hazardous reactions	None known
Conditions to avoid (static discharge, shock or vibration)	Heat, high temperature, open flame, sparks, and moisture. Contact with incompatible materials in a closed system will cause buildup of pressure.
Incompatible materials	This product will react with epoxies, isocyanates, and strong oxidizing agents.
Hazardous decomposition products	Combustion products: organic vapors and thermal decomposition fragments.

# **SECTION 11 - TOXICOLOGICAL INFORMATION**

Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact)	Causes severe skin burns and eye damage. Any contact should not be left untreated. Causes serious eye damage. Exposure may cause mucous membrane and respiratory tract irritation, tightness of chest, headache, shortness of breath, and a dry cough. The effects of acute exposure may be delayed in onset up to 12-24 hours. Repeated exposure above current occupational limits may cause an allergic sensitization of the respiratory tract. This is characterized by an asthma-like response upon re-exposure to the chemical. The symptoms may include coughing, wheezing, shortness of breath and chest tightness. May cause an allergic skin reaction
Symptoms related to the physical, chemical and toxicological characteristics	Skin burn, redness, stinging, pain; Eye burn, redness, tearing; Digestive tract burn; Respiratory tract burn, coughing, shortness of breath, dizziness, drowsiness, nausea and headaches.
Delayed and immediate effects (chronic effects from short-term and long-term exposure)	Skin Sensitization – Possible; Respiratory Sensitization – No data available; Germ Cell Mutagenicity – No data available; Carcinogenicity – No ingredient listed by IARC, ACGIH, NTP or OSHA; Reproductive Toxicity – May damage fertility or the unborn child; Specific Target Organ Toxicity — Single Exposure – No data available; Specific Target Organ Toxicity — Repeated Exposure – generally aggravates the following medical conditions: Cardiovascular disease and Chronic respiratory disease. May cause damage to organs through prolonged or repeated exposure.; Aspiration Hazard – No data available; Health Hazards Not Otherwise Classified – No data available.
Acute Toxicity	If ingested: In humans, irritation or chemical burns of the mouth, pharynx, esophagus and stomach can develop following ingestion, and injury may be severe and cause death. May be harmful in contact with skin Harmful if swallowed. 0009046-10-0 POLYOXYPROPYLENEDIAMINE; LD50 (dermal,rabbit): 2090 mg/kg (based on raw material SDS); LD50 (oral, rat): 480 mg/kg (based on raw material SDS); 0002855-13-2 ISOPHORONEDIAMINE; LD50 (rat,oral): 1,030 mg/kg (based on raw material SDS)

# **SECTION 12 - ECOLOGICAL INFORMATION**

<b>Ecotoxicity</b> (aquatic and terrestrial information)	Toxic to aquatic life. Toxic to aquatic life with long lasting effects
Persistence and degradability	No data available
Bioaccumulative potential	No data available.
Mobility in soil	No data available.
Other adverse effects	No data available.

#### **SECTION 13 - DISPOSAL CONSIDERATIONS**

Information on safe handling for disposal/methods of disposal/contaminated packaging

Dispose of contents/container into safe container in accordance with local, regional or national regulations.

# **SECTION 14 - TRANSPORT INFORMATION**

UN number; Proper shipping name; Class(es); Packing group (PG) of the TDG Regulations:

UN2735; UN Proper Shipping Name: AMINES, LIQUID, CORROSIVE, N.O.S. (ISOPHORONEDIAMINE); CLASS 8; PG III

UN Number; Proper shipping name; Class(es); Packing group (PG) of the IMDG (maritime):

UN2735; UN Proper Shipping Name: AMINES, LIQUID, CORROSIVE, N.O.S. (ISOPHORONEDIAMINE); CLASS 8; PG III

UN Number; Proper shipping name; Class(es); Packing group (PG) of the IATA (air):

UN2735; UN Proper Shipping Name: AMINES, LIQUID, CORROSIVE, N.O.S. (ISOPHORONEDIAMINE); CLASS 8; PG III

Special Precautions (transport/conveyance): None

**Environmental hazards** (IMDG or other): Marine Pollutant

Bulk transport (usually more than 450L in capacity): Possible

#### **SECTION 15 - REGULATORY INFORMATION**

Safety/health Canadian regulations specifics	Refer to Section 2 for the appropriate classification. This product has been classified in accordance with the hazard criteria of the Hazardous Products Regulations (HPR).
Environmental Canadian regulations specifics	Refer to Section 3 for ingredient(s) of the DSL
Safety/health/environmental	United States OSHA information: This product is regulated according to OSHA (29 CFR).
outside regulations specifics Bioaccumulative potential	United States EPA (Environmental Protection Agency) information: 40 CFR Refer to the ingredients listed in Section 3 & Sections 12; 13 & 14.
	United States TCSA information: Refer to the ingredients listed in Section 3.
National Fire Protection Association (NFPA)	HEALTH: 3 FLAMMABILITY: 1 INSTABILITY: 0 SPECIAL HAZARDS: Refer to Section 2 & 3.
	HAZARD SCALE: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe
